

Creating a photo slideshow using Power Point

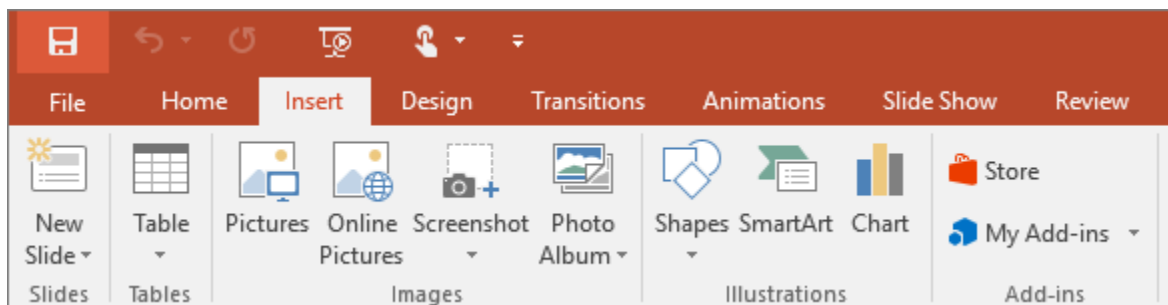

- 1) Collect all the photos you would like to include in the slide show in a folder somewhere on your desktop.

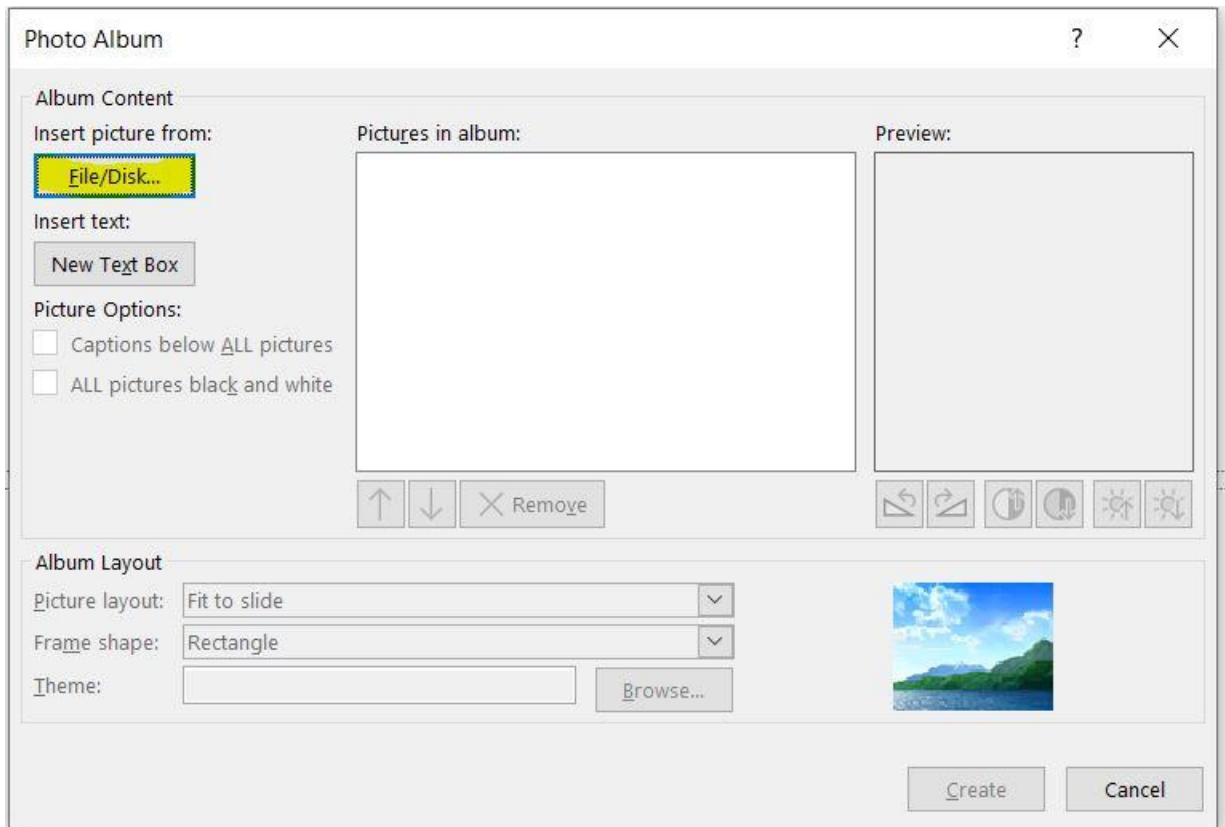

- 2) Open PowerPoint and select a blank presentation.

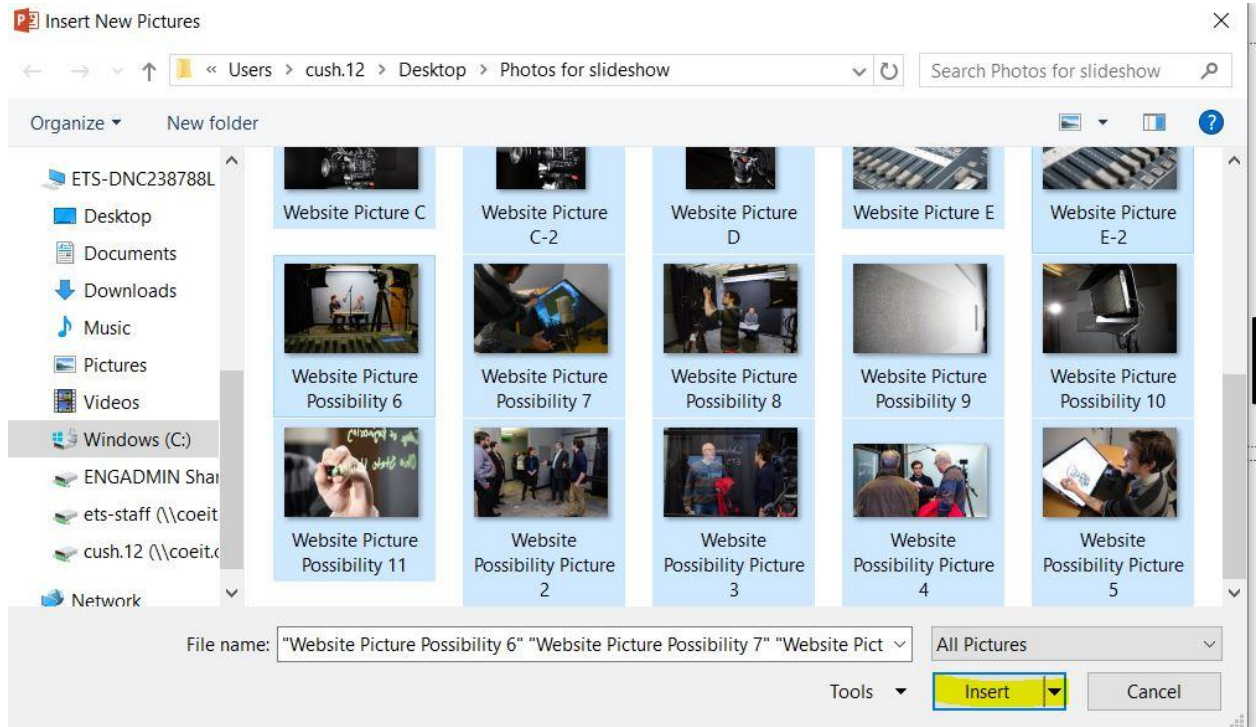

- 3) Go to the insert tab and select photo album.

4) In the box that pops up, select “Insert picture from file/disk”

5) Find the folder from step one and open it up, select all the pictures in the folder and click insert.

6) The slide deck should now be fully populated with photos and ready to be ran as a slide show.

7) Note that from this pane, you can drag and drop photos into the order you wish them to be seen in during the slide show.
